

# Gestational surrogacy is now legal and enforceable in New Jersey

**Meet the Surrogacy Team at Singer & Fedun, LLC. We are here to serve your legal needs and the needs of your clients who are creating families through surrogacy.**

Singer & Fedun counsels families of all configurations. The law firm specializes in family formation and protection, including surrogacy, adoption, parenting agreements, pre-nuptial and post-nuptial agreements, gamete donor contracts, and estate and life planning documents.

The newly-enacted New Jersey Gestational Carrier Agreement Act makes gestational surrogacy agreements enforceable. The Act mandates standards related to medical and legal services. The result is a more certain legal landscape for intended parents, gestational carriers, and donors.

Singer & Fedun has been drafting and reviewing family formation agreements for three decades. It is well-positioned to serve the legal needs of your ART patients at this exciting time.
